

# Title of your paper

Your name  
Your university\*

August, 2018

## Contents

<b>1</b>	<b>Examples</b>	<b>1</b>
1.1	Itemization . . . . .	1
1.2	Text . . . . .	1
1.3	Math . . . . .	2
1.4	Tables . . . . .	3
1.5	Figures . . . . .	4

## 1 Examples

### 1.1 Itemization

- Item 1
- Item 2
  - i. Item 2 (a)
  - ii. Item 2 (b)

### 1.2 Text

You can add an underline. Add a footnote.<sup>1</sup>

Cite a paper by writing a key [Huge \(2018\)](#), ([Hoge, 2015](#)) (See [this site](#)).

Use two slashes

to start a new line without an indent.

---

\*[exmaple@example.com](mailto:exmaple@example.com).

<sup>1</sup>This is a footnote.

If you want to add an indent before the new line,  
make a space above the line.

Change the font size:

- footnotesize
- small
- large
- Large
- LARGE
- huge
- Huge

Change the font style:

- *Italic*
- **Bold**
- Roman
- Sans Serif
- Typewriter
- SMALL CAPS
- *Slanted*

### 1.3 Math

Write a math expression like this  $y = f(x)$ , or:

$$y = \alpha + \beta x + \epsilon. \quad (1)$$

If you want multile lines:

$$\begin{aligned} y &= (x+1)^2 \\ &= x^2 + 2x + 1. \end{aligned} \quad (2)$$

You can refer to each equation in the text as you like ([Equation 1](#), equation [\(1\)](#), [\(2\)](#), [\(2\)](#)).

Write special math symbols:  $\leq, \geq, \neq, \rightarrow, \uparrow, \cap, \cup$ , etc.

Write fractions:

$$y = \frac{1-x}{1+x}. \quad (3)$$

## 1.4 Tables

Table 1: Summary statistics

	mean	std	min	max	count
uid	1281.48	736.896	1	2538	3392
ELECYEAR	2011.56	1.98969	2009	2014	3392
PREFEC	20.8821	12.2485	1	47	3392
DISTRICT	5.77712	5.13715	1	25	3392
PRBLOCK	58.8544	5.09346	51	66	2906
INCUMB	1.79658	0.938328	1	3	3392
TERM	1.45136	2.39026	0	16	3392
SEX	1.15271	0.359763	1	2	3392
AGE	50.5746	11.2587	25	94	3390
RESULT	2.0339	1.2166	1	4	3392

*Notes:* Brabrabra.

Table 2: OLS regressions

	Model 1	Model 2
AGE	0.01*** (0.00)	0.01*** (0.00)
PREFEC		-0.00 (0.00)
Intercept	2.47*** (0.13)	2.48*** (0.14)
R-squared	0.008	0.008
Number of obs.	2157	2157

*Notes:* Standard errors in parentheses. \* $p < 0.1$ , \*\* $< 0.05$ , \*\*\* $< 0.01$ .

You can refer to each table in the text as you like ([Table 2](#), table 2, 1).

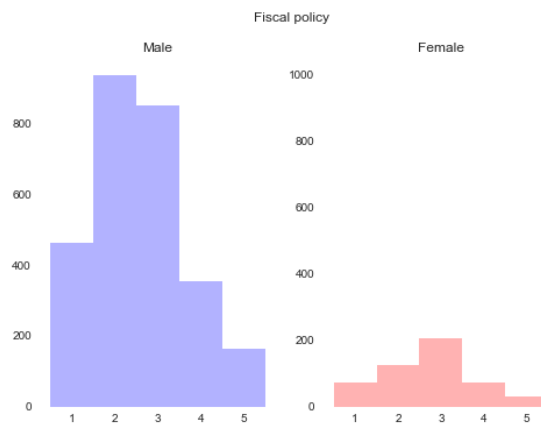

## 1.5 Figures

Figure 1: Political candidates' opinion about fiscal policy

Notes: Brabrabra.

Figure 2: Political candidates' opinion about fiscal policy, by sex

Notes: Brabrabra.

You can refer to each figure in the text as you like ([Figure 1](#), figure (1), (2)).
